

We would like to remind you that the abstract submission deadline date for ICSV18 is 20 January 2011.

Over 400 abstracts have already been received and we are beginning work on putting together the technical programme. We will be finalising the technical programme soon, and if you would like your abstract included in the technical programme and featured in the correct session, then you should send it now. We may try to include a few late abstracts submitted after the above deadline, but we cannot guarantee that this will be possible at this time.

Theoretical and experimental research papers in all areas of acoustics, noise and vibration are invited for presentation. Abstracts of no more than 300 words may be submitted directly on the ICSV18 website, www.icsv18.org.

The 18th International Congress on Sound and Vibration (ICSV18) will be held from 10 - 14 July 2011 at the Windsor Barra Hotel in Rio de Janeiro, Brazil.

The ICSV18 Scientific Programme will include the following keynote lectures:

J. R. F. Arruda, Brazil - Signal Processing in Sound and Vibration

Lex Brown, Australia - Soundscapes

J. E. Ffowcs Williams, UK - Aeroacoustics

Mardi Hastings, USA - Sound in the Ocean: Acoustical Interactions with Marine Animals

Andrei Metrikine, The Netherlands - Stability and Nonlinear Dynamics of Offshore Risers

M. L. Munjal, India - Recent Advances in Muffler Acoustics

Michael Vorlander, Germany - Virtual Acoustics

Thank you and we hope to hear from you soon.

Best Regards,

Ricardo E. Musafir (icsv18@metaeventos.net)
Chair of the ICSV18 Local Organizing Committee
